

Salahaddin University has awarded (Dr. Karzan Mohammad) the title of best researcher for the academic year 2016-2017. Dr. Mohammad has been selected due to his remarkable research activity and scientific achievements throughout the previous academic year including publishing of 8 papers in highly ranked journals with total impacts of 315 scores. That was a great privilege for Ishik University when one of his permanent staff who is the Head of Scientific Research Department at Ishik University Research Center and Lecturer in both Faculties of Dentistry and Education got the title of best researcher of the year and winner of this competition.

As a result of a process of thorough checking and ranking according to the international standards the committee of [Salahaddin University](#) that were responsible for the choice of best publication and best scientist for 2016 announced in a huge ceremony held in the cultural center of Salahaddin University for best researcher award. The President of Salahaddin University (Dr. Ahmed Dizayi) awarded the plaque and the certificate of the best researcher award to Dr. Karzan Mohammad. Thereafter the winner (Dr. Karzan Mohammad) gave a short speech to the audience who filled the hall including academicians, researchers, scholars and postgraduate students. He expressed gratitude to the support and motivation he got from the president of Salahaddin University, also showed his grateful appreciation to ISHIK University for the endless support they provide.

Ishik University is highly appreciate the achievement of Dr. Karzan Mohammad and sincerely thanks his efforts and commitments toward making Ishik University more visible globally and gets deserved attention.
