

First-year students of Biology, Physics and Math departments conducted a workshop about “The Effective methods for learning languages practically” on Wednesday 23rd May. Mr. Sarwan Hasan (a lecturer in ELT Department) organized and supervised the workshop with the Cooperation of Foundation teachers (Mr. Unal, Mr. Fatih, and Mr. Rizgar). The workshop contained 18 different ideas as effective methods for learning languages practically. It started at 12:00 PM at the entrance of the Faculty of Education and continued for two hours. What is worth mentioning, the whole workshop ideas were presented by the first year students in English Language. Besides, a group of students were taking the feedback of the visitors, in order to evaluate the process. Finally, Mr. Sarwan is going to dedicate a paper about the project to the council of the Faculty of Education.
