

At Ishik, we value students feedback and we make sure to obtain their opinions continuously throughout the year. Their opinions, positive and negative, are given considerable thought and care by the University for improvement purposes. Based on last year feedback, teachers at Ishik are requested to provide further references to students. Furthermore, the teachers are encouraged to implement more practical techniques where students can practise more presentations and researches.

The results of student feedback for the academic year 2017-2018 can be accessed [HERE](#)
