

On April 04, 2019, Tishk International University opened an exhibition for celebrating and welcoming the auspicious arrival of spring, the season of various kinds of flowers. The exhibition reflected this very facet of spring by providing various kinds of spring flowers such as tulips, daffodils, and many other types of flowers. The red ribbon for the opening was cut by Head of the board of trustees Dr. Idris Hadi with the two respectable Vice Presidents Dr. Wasfi and Dr. Ozdemir. They appreciated the effort and the hard work that has been put by the students and the teacher of the Art club.

The exhibition was held at the main entrance of the main building from 10:00 Am to 4:00 PM. Meanwhile, the works of art that were done by the talented students of the art club were deserved all of the praise and applaud from the teachers and students alike. The nuances and delicate designs depicted the mastery of the painting brushes by the students.

We hope these kinds of activities continue to flourish so that we can show the fun and colorful part of university life.
