

“There is a very well-known saying “**healthy minds lives within healthy body**”. We all know fresh air not only gives us healthy lungs with healthy body but also produces healthy mind, too.”

On the 13th April 2016, students of the Faculty of Engineering under the supervision of Dr. Hassan Hassoon Al-Delfi *Professor of Sustainability* celebrated the opening the newly established ISHIK Sustainability Club. Dr. Hassan presented the club portfolio first, the presentation was honored by the presence of Dr. Mehmet Ozdemir *Vice President* and Dr. Duran *the Dean of Faculty of Engineering* in addition to Mrs. Siba Kady *the Head of Interior Design Department*.

The presentation was followed by tree plantation event in which **Prof. Dr. Ahmet Öztaş** *the President of the Ishik University*, his valuable guest **Dr. Michael Mulnix** *the President of the American University Duhuk Kurdistan*, university staff and the students planted tree on the campus.
