

Ishik Students Aysha Asaad and Mohammed Asaad under the supervision of Mustafa Botani *Library Manager* organized an event concerning with books and supporting reading.

The idea of this event is based on to read a lot of books in four languages **English, Arabic, Kurdish, and Turkish**, and you can also replace the old book with a new one.

The aim of organizing such event obviously, the readers rate gets down, reading became not important thing or beneficial to us, we no longer care about new released books, this new generation cares about internet more than anything else, so in response to get the glamor back to books, and start reading more, they decided to organize this event. Because the joy of reading books can't be described in words. It's something only by real experience, when you read a book, it feels great to put yourself in to a word the writer has created for you. So reading a book is same like watching a movie.
